### COMMENTS:

*We have a number of questions in regards to safety of the Yucca Mountain project? The actual capacity and length of time nuclear waste could be stored? The high level water table around the area. The fissures within Yucca Mountain. Why can we not find environmentally safe ways to reuse nuclear waste? How will the new rail track that goes through downtown Reno be used to transport nuclear waste? Who is in charge of the transportation of nuclear waste if there is an accident? This form is not conducive to allowing*

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).

*the public to adequately have questions answered.*
